

Parquet Saw

Order-No. 114 094 000

With our new parquet saw, its 2400 watt strong motor and the especially manufactured saw blades, continuous ergonomic work when cutting parquet flooring is guaranteed.

AREA OF APPLICATION:

For cutting parquet and wood based surfaces before using stripping machines:

Standard saw blade Ø 180 has 24 teeth and is especially thin. This allows for fast cutting since there is very little resistance of the parquet. The blade is made only for wood and wood based surfaces. Check the cutting depth to avoid cutting into concrete or screed sub surfaces. Cutting depth up to approximately 35mm.

Order-No. 114 094 300

PKD saw blade Ø 180 is equipped with 8 PKD teeth. PKD teeth allow for mistakes cutting accidentally into concrete or screed but the blade is not suitable to cut concrete or screed.

Order-No. 114 094 370

For cutting and cleaning of joints and cracks for example on concrete or screed surfaces.

Diamond separating disc Ø 205 can be used for cutting concrete and screed. It has a cutting depth of up to 50mm.

Order-No. 114 094 350

SPECIAL FEATURES:

- cutting process in an upright position
- easy to handle
- very fast cutting speed
- excellent dust extraction

TECHNICAL DATA:

Mains supply:	230V
Diameter/saw blade:	ca. 180mm
Power input:	2,4 kW
Speed:	8.500 rpm
Blade depth variable	up to max 50mm

vacuum connection suitable for 50 mm and 76 mm connectors, as Multi-Vac Y-Adapter

DELIVERY CONTENTS:

Standard saw blade for wood (order-no. 114 094 300), tool for changing saw blade and guide rail assembly, cord wrap
